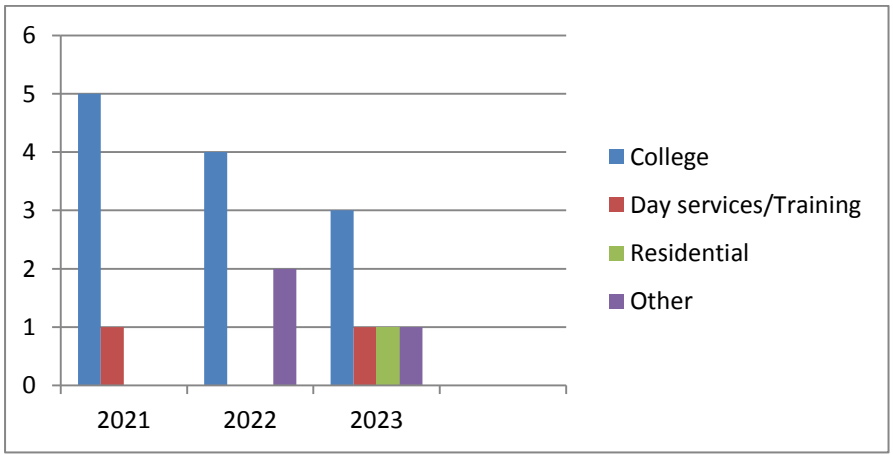
Transition Beyond School

From summer 2021 to summer 2023 we have had 18 school leavers, 14 of whom have moved successfully on to their primary placement of either college or day services/training. This success rate is testimony to the work of our FE teams, Guidance Advisor and our hard working, resilient pupils.

Two leavers in 2022 were unable to move on to either day services or college; 1 due to having to move house and the other due to the very complex nature of their needs.


In 2023 1 pupil moved into a residential setting and 1 pupil as of November 2023 is still waiting for a bespoke day service package to be set up to meet their complex needs.
